RESUME SUMMARY

Full Stack Developer Trainee with hands-on experience in developing web applications using **React.js, Node.js, Express.js, MongoDB**, and **REST APIs**. Skilled in building **Responsive user interfaces**, implementing **CRUD operations**, and integrating frontend applications with backend services. Strong understanding of **JavaScript (ES6+)**, **Git/GitHub**, **API integration**, and modern **full-stack development** practices.

WORK EXPERIENCE

TechFusion Computer Training Institute LLP

(Fullstack Developer Trainee - Sept 2025 – Apr 2026)

- Developed **full-stack web applications** using **React.js, Node.js, Express.js**, and **MongoDB**.
- Implemented **REST API integration** and dynamic data communication between frontend and backend systems.
- Built reusable **React components** and responsive user interfaces for business applications.
- Developed **authentication systems** and **CRUD functionalities** for real-world projects.
- Collaborated using **Git** and **GitHub** while following structured development workflows.

PROJECTS

Movie Ticket Booking Platform

Technologies: Node.js, Express.js, MongoDB, EJS, HTML5, CSS3, JavaScript, Bootstrap

- Developed a **full-stack movie ticket booking platform** using **Node.js, Express.js, MongoDB**, and **EJS** following the **MVC architecture**.
- Designed and implemented **RESTful APIs** for movie management, booking operations, and user account handling.
- Built **backend modules** for movie listings, show scheduling, seat booking, and ticket management.
- Structured and managed **MongoDB** collections to efficiently **store and retrieve movie, booking and user data**.
- **Integrated frontend and backend modules** to ensure seamless **data communication** and **application performance**.
- Implemented dynamic seat selection and booking workflows with real-time data handling.
- Developed **responsive and user-friendly interfaces** optimized for desktop and mobile devices.
- Applied modular development practices and **clean code principles** to improve application **maintainability and scalability**.

TaskTracker – Task Management System

Technologies: React.js, Redux Toolkit, React Router, JavaScript, HTML5, CSS3, Bootstrap, Local Storage

- Developed a **task management application** using **React.js, Redux Toolkit, React Router**, JavaScript, HTML5, CSS3, and Bootstrap.

- Implemented **secure login and signup functionality** for admins and employees.
- Designed and developed **role-based access control** allowing administrators to assign, monitor, and manage tasks efficiently.
- Utilized **Redux** for centralized **state management** and seamless data flow across application modules.
- Built reusable **React components** to improve **scalability and maintainability**.
- Implemented task creation, task assignment, progress tracking, and employee feedback features.
- Designed **responsive user interfaces** optimized for desktop, tablet, and mobile devices.
- Improved user experience through **dynamic rendering, efficient navigation, and organized dashboard layouts**.

ShopSphere – E-Commerce Platform

Technologies: React.js, Redux Toolkit, JavaScript, HTML5, CSS3, Bootstrap, Local Storage

- Developed a responsive **E-Commerce Platform** using **React.js** and **Redux Toolkit** for efficient state management.
- Implemented **product listing, product details, search, and filtering functionalities** to enhance user experience.
- Built a shopping cart system with add, update, and remove item features using **Redux Toolkit** and **Local Storage**.
- Created reusable **React components** and followed **component-based architecture** to improve scalability and maintainability.
- Managed application state efficiently using **centralized Redux store and React Hooks**.
- Designed **responsive user interfaces** using Bootstrap to ensure compatibility across desktop, tablet, and mobile devices.
- Enhanced user experience through **dynamic rendering, organized layouts, and seamless navigation workflows**.

SKILLS

Frontend Technologies:

React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design

Backend Technologies:

Node.js, Express.js, REST APIs, MVC Architecture

Database:

MongoDB, Database Operations

Libraries & Tools:

Redux, Redux Toolkit, Context API, Axios, React Router, Git, GitHub

EDUCATION

Dbatu University | 2022-2025

CGPA: 8.2/10

Bachelor of Technology

MSBT | 2019-2022

Percentage: 74%

Diploma in Computer Technology

CERTIFICATE

MERN Stack Development

TechFusion Computer Training Institute LLP

SEPT 2025 - APR 2026
